

DLC Locations

Cavalier / Calibra / Omega-A

Located in the engine compartment (old style, requires 10 to 16 pin adapter)

Corsa B / Astra F / Tigra

Located in the fuse box near the driver. Depending on the model it is a 10-pin or 16-pin diagnostic plug.

Omega-B

Located in the fuse box near the driver.

Vectra-B

Located under the handbrake lever. Lift up the trim panel under the lever to access it.

Astra G / Zafira

Located under the handbrake lever. Lift up the trim panel under the lever to access it.

Corsa C / Meriva / Tigra-B

Located under the heater controls. It is recessed in the lower part of the panel (take extra care inserting the interface)

Vectra C / Signum

Located underneath the ashtray. The ashtray must be removed for access.

Astra-H

Located under the handbrake lever. Lift up the trim panel under the lever to access it.

Zafira-B

Located behind the ashtray near the gear lever in the centre console.

Corsa D

Located underneath the heater control panel.

Vivaro

Located underneath the steering wheel. Remove cover to access the socket.
